

Courage

©2016 by R. Bowdon

Key of D, 4/4 time, tempo 81

INTRO= 1 measure

D G A

I dreamed that we'd been blown around like leaves in a hurricane

Prey to forces way beyond control

Carried far away where life would never be the same

Wonderin' if we'd ever get back home

On a cold November night we felt that nightmare coming true

The headlines said the world was crashing down

Winners taking all but we were all about to lose

Fear, despair, and anger all around

Chorus

We choose not to be afraid

We'll speak our minds and mean what we say

In the land of the free and the home of the brave

We choose not to be afraid

verse break

Truth and justice, hope and love will be our battlecries

We'll carry them as banners up the hill

We'll stand up for the least among us proudly testify

And join hands with people of good will

Repeat chorus then outro = last half of chorus
