

# How Things Will Be

© 2009 by R. Bowdon

*key of G, C harp, Jim: Acoustic*

*Intro: G7 D C then harp verse*

*A part*

Gonna <sup>C7</sup> hit the road / gonna <sup>G7</sup> hit the highway

<sup>C7</sup> Headed toward I don't know where

<sup>C7</sup> got some cash but I <sup>G7</sup> need some courage

<sup>D7</sup> Ain't no one <sup>C7</sup> says <sup>G7</sup> it's fair

Gonna step into that all night diner  
eat my grits with a greasy spoon  
I'm grindin gears and burnin daylight  
shootin' past the moon

*B part*

Gonna turn some <sup>D7</sup> gas / on into <sup>G7</sup> speed

You don't ever know / how things will be <sup>A7</sup> <sup>D7</sup>

*A part break - Acoustic*

Now's my chance to take up smoking / it's a perfect time to drink and drive  
Everyone's gonna die of something / keeping me alive

Ain't nothing safe / ain't nothing free  
You don't ever know / how things will be

*A part break - Acoustic*

*B part break - Harp*

So hand me down my silver plated / automatic carbine gun  
Just in case there may be trouble / in case there may be fun

You got to be prepared / you got to wait and see  
You don't ever know / how things will be

*Outro = first two lines of first verse*
